

## GRAUBURGUNDER reserve 2017

Origin:	lower austria, Austria
Varietal(s):	Grauburgunder (Pinot Gris)
Color:	White
Description:	Fascinating amber colour due to the skin-contact. Fascinating aroma full of hazelnut, plums und rum. Creamy and very full-bodied on the palate with a long finish. The mild acidity and the good, mature tannin embody the wine with complexity.
Terroir:	South-easterly slopes in the vineyards of Kirchberg, Rosenberg und Eckartsberg. The soil full of loam and limestone bears a wine with strong mineralic character.
Vinification:	At the beginning of November we take care to bring in the grapes at cool temperature, followed by skin-contact of up to 72 hours. The fermentation of the ripe must takes place in oak barrels of 500 l where it is left on the lees for up to 10 months.
Food-Pairing:	Game-dishes, lamb-dishes, duck-dishes, cheese, sweet dishes with nuts, nougat, coffee and caramalized fruits.

**NACHHALTIG  
SUSTAINABLE  
AUSTRIA**

### The Winery

Dürnberg in the picturesque village of Falkenstein is managed by winemaker Christoph Körner together with his friends and business partners Matthias Marchesani and Georg Klein. „The three from Dürnberg“ are true wine enthusiasts and therefore constantly aim at the creation of wines with strong character that unite the traditional and the modern in a refined, sophisticated way.

The mixture of limestone and loam comprise the typical wine soil – the terroir - of the region. Elegance, complexity on the palate and cool minerality are rooted here.

No matter which measures are taken in the vineyards, the sustainable use of natural resources is at the forefront of Dürnberg´s care. As every detail of the vineyards is known, the team has formulated his own rules of eco-management. Only resources that are permitted for “controlled integrated production” are used. Because of this sustainable management, the Dürnberg team is proud of their healthy old vineyards with up to 60 years old vines!

Dürnberg Winery is a „Leading Wine Producer“ of the Weinviertel region and certified for its sustainable production.

Quality Wine

dry

Alc.: 13.5 % Vol.
